EMMANUELLA GYAMFUAH-FRIMPONG – YEAR 7

What are your aspirations?
My aspirations include becoming a School Captain, successfully completing secondary college and hopefully later on become a Doctor. I’d also like to finish secondary college with a score of 90+. Lastly I’d love to become a Photographer.

What extra-curricular activities do you do?
Outside of school I play Tennis. Throughout my time at Santa Maria I’d like to be involved in the College Production, Dance and Drama because I like pretending and acting things out. I would also like to be in the Basketball team or the Soccer team because I like playing sport and doing things that require fast movements and your body.

What you like about being a Santa Girl?
What I like about being a Santa Girl is the fact that you have a whole lot of opportunities to choose from and become a part of. Also, with that comes a lot of responsibility so you’re not just learning new things every day, you’re actually having fun too. I also like that Santa Maria has a good reputation. When I’m asked what school I attend, I reply saying Santa Maria College. People always say ‘that school is a great school’ or ‘good luck, there are lots of opportunities there for you’.
